Managing Your Data Online

You can manage the POS system data online means doesn't mean that your shop has to go online every time, but they can hook to the internet and sync the data online when necessary. Once you have all the data, there are a lot of operations or management can be done online.

1. Add new item, stocks, price, cost.
 2. Modify items quantity, price, descriptions and etc.
 3. Check item transactions, on hand quantity, receive new item and adjust quantity.
 4. Check all the sales report, profit report and etc.
 5. Create vouchers, promotions, members category, item category and etc.
 6. Create new employee and attach working pattern and check attendance.
 7. Create contacts, view and modify contacts and search for contact history.
 8. Manage multiple branch from one page.
- Many more
